

**WE BUILD OUR HOMES
OUT OF A NUMBER OF
MATERIALS.**

**WE CARVE OUR DELIVERY DATES IN
STONE.**

We can't afford to break promises any more than you can. That's why we're as precise with a calendar as we are with a nail gun. When we say we'll have your home on your site on a certain day, you can count on it. Oak Creek and Platinum have a full offering of affordable off-frame and on-frame modulars ready and available. Every home can be engineered to withstand up to 140 mph wind loads. And we provide the training and support you'd expect from a company that's built thousands of homes over several decades. Find out more. Call Larry Wilkinson at 888-922-7733 today.
